Tanz Hoque

London, UK | 07496 766180 | tanzhoq@gmail.com | GitHub: tanz-cmyk | LinkedIn: linkedin.com/in/tanz-hoque

Professional Summary

Driven software developer with a background in administration, design, and print coordination, transitioning into technology with a robust foundation in full-stack development. Proficient in HTML, CSS, JavaScript, and Python, with a knack for problem-solving and optimizing workflows. Currently expanding expertise in machine learning and artificial intelligence through the *Machine Learning Specialization* by Stanford University & DeepLearning.AI. Known for a collaborative spirit, attention to detail, and a commitment to enhancing user experiences. Recently completed a software development program, adding modern development frameworks and best practices to my toolkit.

Technical Skills

- **Languages & Frameworks:** HTML, CSS, JavaScript, Python, React, Node.js
- **Software & Tools:** Git, GitHub, VS Code, Adobe Illustrator, Photoshop, InDesign, Monday.com, Xero
- **Database Management:** SQL, MongoDB
- **Version Control:** Git (command line and GitHub workflows)
- **Project Management:** Agile methodologies, Trello, Jira

Professional Experience

Software Developer Intern

Code Institute (WAES)

September – Present

- Developed a responsive web application to streamline client project tracking, improving accessibility and team coordination.
- Collaborated in a team of developers to build features in JavaScript and React, ensuring high performance and user-friendly design.
- Managed GitHub repository for version control, handling pull requests and merging branches following best practices.
- Contributed to project documentation and peer-reviewed code to maintain high-quality standards and reduce errors.

Administrator / Print Coordinator

Azo Print Ltd, Holborn, London, UK (Freelance)

- Coordinated production tasks and managed print orders, ensuring efficiency and adherence to tight deadlines.
- Enhanced client relationships by offering custom design solutions, which helped drive customer satisfaction and retention.
- Leveraged expertise in Adobe design software to streamline processes and increase quality in print production.

Bar Supervisor

Truman Social Club, London, UK

March 2021 – Present

- Played a leadership role in managing high-volume events, prioritizing customer service and efficient team management.
- Trained team members in product knowledge and service standards, contributing to an increase in customer satisfaction ratings.

Education

- **BA (Hons) Film, Media, and Journalism** – Queen Mary University (2023)
- **Full Stack Development Course** (WAES / Code Institute) (2024)
  - Completed a comprehensive program covering front-end and back-end development.
- **Machine Learning Specialization** (Stanford University & DeepLearning.AI) (In Progress)
  - Learning foundational and advanced techniques in machine learning, deep learning, and artificial intelligence.
- **Advanced Customer Service Strategies** (2023)
- **Leadership in the Workplace Workshop** (2022)

Projects

Personal Portfolio Website

Designed and developed a personal portfolio website using HTML, CSS, and JavaScript. Integrated features like a responsive sidebar menu, interactive image gallery, and a contact form.

Asteroid Game

Developed an Asteroid game with JavaScript, featuring multiple enemies, boss levels, and a competitive leaderboard implemented using Node.js. Integrated real-time player ranking updates and a scoring system to enhance gameplay. Focused on creating a dynamic, interactive user experience with scalable back-end functionality.
